# Solar Kits

**PRE-ENGINEERED  
SOLAR SYSTEMS**

We're always looking for ways to make it easier and more cost effective for installers to get the job done.

That's the inspiration behind our Solar Kits, which provide a turn-key solution for quick and easy installation. Our pre-packaged solar electric systems come complete with line diagrams and product datasheets. Combine a Sol-Gen PV Kit with a Sol-Rac Kit for a complete solar solution.

## Power & Racking Kits

Combine a Sol-Gen PV Kit for power generation with the Sol-Rac Kit that's right for your roof/ground layout for a complete solar solution.

### SOL-GEN PV KITS

These kits contain PV modules, home run cables, wire management cable clips, a lightning arrestor and a grid-tied inverter. An external lockable AC disconnect (if required by your local AHJ or utility) and remote monitoring systems may be purchased separately.

Major module manufacturers include:

- Sharp Solar
- Yingli Solar
- BP Solar
- Canadian Solar

Major inverter manufacturers include:

- SMA
- Fronius

### SOL-RAC KITS

Choose from a wide selection of flush and ground mount racking kits. They are packaged for single rows, so it's easy to put together the exact combination for your specific roof layout. Choose your preferred racking manufacturer:

- IronRidge
- Pro Solar
- Unirac
- Zep Solar

Each racking kit contains rails, splices, standoffs, flashings, module grounding hardware, and top-down clamps for modules as indicated. Zep Solar kits contain Array Skirt(s), Interlocks, Leveling Feet, Comp Mounts, Wire Clips and Ground Zep. The included components provide you with a complete and easy racking solution for your solar array.
