

We've been leading the industry for over 30 years

SolarWorld is the largest PV manufacturer in the USA since 1977

- Vertically integrated from raw silicon to modules, kits and systems
- 500 MW of wafer, cell and module capacity by 2011
- Financially stable with over \$1.2 billion in revenues
- Over 30 years of PV manufacturing experience

SolarWorld Sunmodules produce the most kWh

- Proven in independent real-world testing by Photon International
- Up to 10% more kWh/kW than other major brand modules
- Superior low-light performance through cell texturing
- Plus sorting ensures that every module meets or exceeds its name plate rating

SolarWorld is an industry leader

- First to offer a 25 year linear warranty for PV modules
- First to manufacture UL listed PV modules
- First to fully recycle crystalline PV modules
- First to build 1 MW+ solar PV projects
- First to offer grid tied PV kits

SolarWorld products are the highest quality available

- Tested to 113 psf for IEC 61215 heavy load compliance
- NEC 2008 compliant module and connections
- Unsurpassed 25 year linear warranty

SolarWorld is a sustainable, socially responsible manufacturer

- Environmental impacts reported alongside financial results
- Local manufacturing under strict environmental regulations
- Solar2World initiative supplies projects in developing nations
- Broken or obsolete modules are recycled

Silicon reprocessing - Vancouver, WA

Crystal growing, wafering and cell production - Hillsboro, OR

Module assembly and sales center for the Americas - Camarillo, CA

Because performance matters.

The best PV modules are made in the USA

What does it really mean to be made in America?

For SolarWorld, being made in America means more than simply assembling foreign components in the USA, which does little to benefit the economy. By carrying out the entire value chain in the USA, we are creating American manufacturing jobs not only at our factories but at our suppliers' factories as well.

American components and materials

- Raw silicon
- Tempered glass
- Aluminum module frames
- Back sheets and embedding
- Other direct and indirect materials

American manufacturing

- Silicon reprocessing in Vancouver, WA
- Crystal growing and wafering in Hillsboro, OR
- Cell manufacturing in Hillsboro, OR
- Module assembly, sales & customer service in Camarillo, CA

Why made in America is important to our customers

- Highest quality products
- Reliable delivery schedules
- Local warranty and product support
- Real energy independence vs importing
- Avoids environmental costs of overseas shipping
- ***Meets and exceeds all federal Buy America requirements***
- Money spent stimulates the US economy and creates US jobs
- Processes meet stringent US labor and environmental policies

SolarWorld is investing over \$500 million to expand US-based manufacturing, which generates hundreds of millions of dollars each year for American workers, goods and services.
